

The Bicycle

private hire

At the Bicycle instead of having a buffet table in a corner of the room, we place all items on individual tables through the whole restaurant and replenish, starting with sandwiches and warm savouries and finishing with freshly made cakes with tea and coffee being served throughout. By doing this it gives more room for people to move around, join others at the table, giving the chance for the family to walk round and chat to their guests and to be looked after and served by our staff instead of you serving yourself.
